

Are You Due for a Mammogram?

We are bringing digital mammography screenings straight to you!

Methodist Mobile Mammography will be on-site performing screening mammograms for eligible women 40 and older who have not had their annual mammogram in the past 12 months.

Why Mobile Screening Mammography?

1 out of every 8 women will have breast cancer during her lifetime. In addition, 8 out of 9 of diagnosed women have no family history of breast cancer. But, with early detection, the cure rate for breast cancer can be as high as 96 percent. The Methodist Mobile Mammography unit features the latest breast screening technology, conveniently brought to you at your business location.

Benefits of 3D Screening Technology

- Creates a 3D image of your breast for a complete picture
- Provides incredibly sharp images that can reveal the smallest abnormalities
- Reduces the need for additional imaging
- Detects 41% more invasive breast cancers
- Reduces false positives by up to 40%
- Increases early detection in dense breast tissue

Scheduling Your Appointment

- Methodist accepts most insurance plans.
- Visit www.methodisthealth.org/wellness to schedule your appointment and pre-register for your screening mammogram. *Space is limited.*
